## INTERGENERATIONAL PROGRAM

The Pillars Child Care offers unique, award-winning and innovative educational programming for infants to preschoolers. Our intergenerational program provides opportunities for The Pillars of Prospect Park residents and children in our child care to enjoy shared activities.

Our residents have already seen the many benefits of choosing to live in an intergenerational shared-site senior living community. They include interacting with the younger generation, watching them play and learn, sharing their family stories, reading to children, creating art projects and so much more!
